To Whom It May Concern,

We are writing on behalf of Busy Bees Child Care to confirm information regarding Rune O'Connor, who is currently enrolled in our program, and his family's emergency care arrangements.

Rune's older brother, Solan O'Connor, is listed on our official emergency pick-up authorization form and has been approved by his parents to retrieve Rune whenever necessary. We are also aware of ongoing medical issues experienced by Rune's mother, Kim O'Connor, which have required emergency medical attention on multiple occasions.

Our staff has personally witnessed situations where Solan arrived alone to pick up Rune and care for him, after Kim had medical crisis and was taken to the emergency room. These occurrences have demonstrated Solan's essential role in ensuring Rune's safety during family-medical emergencies.

Solan has consistently been responsible, timely, and appropriate in fulfilling this emergency caregiver role. Based on our direct experience, his ability to respond quickly during these situations is critical to this family's well-being.

Sincerely,

Owner of Busy Bees Child Care
